Dedicated Fleet:

Dedicated Fleet is right for you when you need extra vehicle capacity to perform deliveries or you don't want to be in the equipment management and delivery business anymore! Many of our Scheduled Fleet Customers come to us to reduce their costs of recruiting, training, insurance, fuel, maintenance and asset management. They trust Claire's Delivery Service because we ARE in the delivery business.

Scheduled Deliveries:

Scheduled deliveries can include: mail pickups, delivery routes, inter-office correspondence, daily shipment sweeps, shipment overload, or whatever you can think of that requires us to repetitively perform a delivery. We can set these up in advance, usually at a reduced cost.
